Profile

I am a creative and ambitious UX/UI Designer with a talent of thinking outside the box and coming up with innovative ideas and designs. I have a clear, logical mind with a practical approach to problem-solving and a drive to see things through to completion. Furthermore, I have half a year of experience in design development and UX research across multiple sectors.

I am eager to learn and I enjoy overcoming challenges. I set my heart on the idea that in the future designs of mobile applications and sites will become even simpler and more convenient to use and we are ready to make this change.
